

Sinks and Sequestration Data Collection Worksheet for RAD Activities

Description of Activity, Program or Project:
(*Brief description that addresses: who, what, where, when, why, how*)

Latitude: _____ Longitude: _____

Previous Land-Use: _____

Year Undertaken: _____

Type of Forest Affected¹: _____

Area of Land (ha) Affected: _____

Planting Density (*if activity is reforestation or afforestation*): _____

Species of Tree (*include approximate percentage of each species*):

Soil Conditions (*include soil texture, pH, moisture, depth and drainage*)²:

¹ To determine the type of forest, refer to Canada's Forest Regions. A map of Canada's Forest Regions can be found at http://www.nfdp.ccfm.org/frames2_e.htm. Go to Data Organization – Topics. Click on Forest Inventory. Next, in the Table of Contents, click on Forest Regions. Then click on Map 3, “Forest Regions, 1991.” If more information on Forest Regions in Canada is required, call Canada's Forest Inventory at (250-363-0615).

²Soil information for each “ecoregion” in Canada is provided on Environment Canada's website. See their interactive Ecozone Map, http://www1.ec.gc.ca/~ecozones/canada_e.htm.
