Dear Mr. Gratton,

Subject: External Verification of TSM Self-Assessments for Teck Resources Limited

Teck Resources Limited has a process in place to verify the information provided to the Mining Association of Canada (MAC) with respect to our participation in the Towards Sustainable Mining (TSM) Performance Indicators.

Our TSM Verification Process included an independent review performed by Environmental Resource Management (ERM). ERM assessed Teck's reported performance indicator results for the year ending December 31, 2012 as measured against the requirements of MAC's Towards Sustainable Mining Performance Indicators.

Performance was verified for the following operations:

- Highland Valley Copper (HVC)
- Elkview
- Fording River

The results submitted online reflect the verified results.

Please feel free to contact Ed Kniel (604) 699 4589 if you have any questions about our 2012 results.

Yours sincerely,

Donald R. Lindsay
President and CEO
Teck Resources Limited
